

"2nd Sunday of the Month" **e-WORKSHOP Series**

Young People in OA

This month's focus is to offer space and fellowship to young people in Overeaters Anonymous to serve and share in all aspects of their recovery. We will hear from young people in OA and/or those who began their programs during younger years. Our goal is to carry the message of working the steps and share encouragement from other members of what has worked for them. Through service and working the Steps, we get better.
